## PROFILE

### My name is Evgenia.

I'm 27 years old. I devoted 9 years to medicine and decided to change the field of activity. I finished Front-end and React courses in The Rolling Scopes School.

I easily assimilate information, learn quickly, can easily switch from one task to another, like to cope with non-standard situations. I'm stress resistant, calm and ready to action.

I'm looking for a job or internship in Front-end development. I'm interesting in reactive technologies, especially React.
